To Whom It May Concern:

This is a letter of referral for Universal Silo Services. Universal Silo Services has been involved in the cleaning of our silos, using functional and efficient techniques to achieve results.

We laid out our needs for Universal Silo Services, setting out a very aggressive completion date, and they have completed all our requests as promised. Universal Silo Services not only has the skills needed for this type of project, but also has the professionalism and experience to handle any situation with complete confidence.

I would recommend Universal Silo Services for any silo cleaning and also feel that Universal Silo Services would be proficient in just about any cleaning situation they endeavor. Should you wish any further information on Universal Silo Services, please feel free to contact me anytime.

Sincerely,

Alan Chau
Sanitation Supervisor
